We are a new face on the CAR JIG DESIGN area, have experience staffs, they have work for Japan company, American on the CAR JIG DESIGN area.

2. FACILITIES COMPANY

This a design department of our company

3. HUMAN

We have more than 6 years experienced in the Car Jig Design. Before working for SEG Viet Nam, co-operate with project HONDA JAPAN, TOYOTA JAPAN, NISSAN JAPAN.

We use CATIA V5 well, We have been working at **Car Jig Design** with Japan company so we are confident that we can finish any task about the JIG DESIGN.

Our Major Contain:

- Modeling Design
- 2D drawings (PART AND ASSY)
- Make the LIST of the products
- Design the AIR CIRCUIT
- Make a ACCURACY SHEET...etc.

We can also use AUTOCAD software supporting our work, We usually use both of CATIA and AUTOCAD to design Car Jig.

WHY SHOULD YOU CHOOSE US TO CO-OPERATE?

We work with our enthusiastic, responsibility and finishing the work on time.

We have a young man team who can work under the high pressure, working overtime to submit the orders before the deadline.

Our staff s have worked for Honda, Toyota, Nissan for more than 5 year...and We design the Jig, supporting them to finish the task. We are growing up day by day.

We learnt so much from our mistakes in the past so we can improve to get the high quality work, avoiding the mistakes and give you our best shot.

You can only give us the task and your requirements. All things will be done by us.

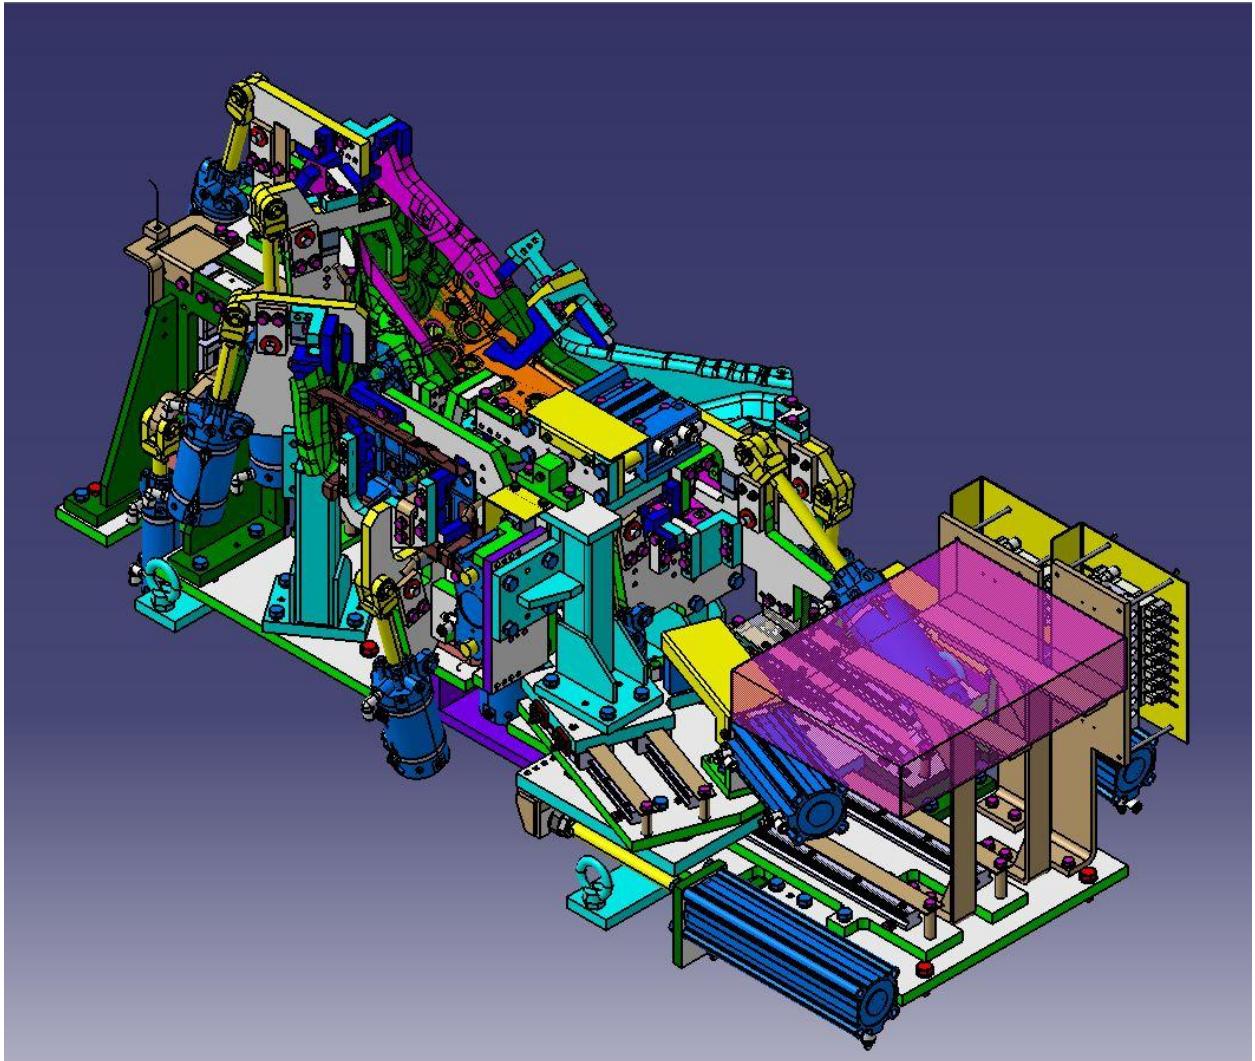

One more thing is we have a factory to produce the products for our customers. Provide the services, give the advice for our customers.

THE BENEFITS YOU CAN GET FROM US.

- ✓ The tasks are always submitted on time with high quality.
- ✓ Our price is flexible and lower than other companies.
- ✓ We always keep in touch with customers to give the work flow fluently.
- ✓ We have professional employees, happy working environment.

FINAL THOUGHT

I hope we can work together for a long term. Please give us a chance and you will not regret about your decision. Here are the samples of our work.
